**A.2                      SCOPE                      OF                      WORKS**

## SCOPE OF SERVICES –

### (1) CONSTRUCTION OF A CRUSHING and SCREENING PLANT

---

#### Introduction/ Background

In 2007, African Exploration Mining and Financial Corporation (Pty) Ltd (“AEMFC”) is a subsidiary of CEF Pty Ltd which is a wholly owned state enterprise.

#### **A.1.11 Overview of AEMFC’s Scope**

AEMFC wishes to appoint a suitable plant construction company to construct an Eskom coal type crushing and screening facility at its Vlakfontein project site.

The Scope of Works includes the following:

- Crushing and Screening Plant design
- Do the Civil work of the Crushing and Screening plant
- Procure the equipment required for the plant
- Do the mechanical work
- Plate Work
- Pipe Work and Valves
- Corrosion Control
- Electrical Work
- Control and Instrumentation
- Site Establishment
- Engineering Resources
- Transportation of equipment
- Site Resources
- Commission the Plant,
- Installation of plant scales
- Installation of an auto sampler on the final product conveyor

### A.1.12 Services and Information to be supplied by AEMFC

The AEMFC will provide:

- The ROM tons to be processed
- The geotechnical information of the plant site.
- The report of the Environmental Management plan

### A.1.13 Technical Information

A feasibility study has been conducted and the result accepted by AEMFC and it is on that basis that the project is progressed. The processing requirements for the mine are a 600 tph Crushing and Screening Plant without washing. The plant will be located as depicted on the plan provided. A weigh bridge will be constructed on the truck route and only one weigh bridge for both inbound and outbound trucks because of the number of trucks to be used. An appropriate and adequately sized switch yard will be needed to supply all the plant equipment and outbuildings on the project. A containerised Motor Control Centre will be constructed to house all the MCC complete with its associated soft starters, Programmable Logic Controller, Lighting Distribution Board and associated maintenance tools. The Container should be placed such that it minimises the cable length and distance to electrical equipment. Transformers necessary to transform the voltage to use on small power requirements will be installed as well.

### A.1.14 Service Provider to Provide in Tender

Included in the tender document the Supplier must indicate for the project:

#### **The pricing formula to be used to complete the project**

*The prices quoted for the service must remain firm for a minimum period of 12 months from the Signature Date. Thereafter the Service provider shall furnish one calendar months' written notice of any proposed price changes, which must be accompanied by documentary evidence which substantiates the proposed price change, and the proposed price changes may not exceed increases in the Consumer Price Index. The price change will then be subject to mutual agreement between the parties and final approval from the CEO: AEMFC. Should mutual agreement not be reached between the parties regarding the price adjustment, either party may terminate the Contract by giving 4 (four) calendar months' written notice of termination. Should the Contract be terminated as contemplated in this Clause, the provisions relating to termination at the AEMFC's option under the heading "General" below, shall apply, mutatis mutandis.*

Prices quoted must be exclusive of Value-Added Tax.

### A.1.15 Project Personnel and Subcontractors

The envisaged project team members and subcontractors must be disclosed to AEMFC.

### A.1.16 Liaison

It is expected for the Contractor to liaise with the Mine Manager, Mine Engineer and whoever as determined by the Mine Manager and be available for meetings as determined by the Mine Manager.
